

"Bolshevism A Hollow Promise; American Workmen Would Never Pursue Soviet Methods"

BERLIN, January 12.—Frank expressions of disappointment over conditions in Russia, together with assertions that American workmen would never pursue Soviet methods, were declared by M. Schwartz, an American Socialist, and a resident of San Francisco, to have been responsible for his four months' imprisonment in Bolshevik jails in Moscow. Schwartz and his wife were arrested on August 6 and released on December 3, and Mrs. Schwartz died in Berlin on December 20 from the effects of the hardships she endured.

Schwartz went to Moscow last June and attended the second congress of the third international. He said here yesterday efforts were made to disguise the real situation in Russia, but that he had detected the conditions which prevailed.

"I was broken hearted by what I saw," he continued, "and realized what a terrible misconception my wife and I had of the Soviet government before we arrived in Russia. We were told and could not conceal our disappointment. The Bolsheviks came to realize our condition. Wilhelm Dittmann, Herr Crispian, Ernest Dammig and Herr Sloecker, four German Socialist leaders, who were delegates to the Soviet congress, knew we had visited many sections of the country and that I spoke Russian. As a result they asked me my opinion of the situation. I spoke frankly, telling them it was unnecessary for me to discuss miseries which were apparent to even a casual observer.

"My frank statements probably led to our troubles. Later Boris Reinstein, of Buffalo, N. Y., and a prominent Socialist leader, asked me when a revolution would take place in America, and how the Communist party was progressing there. I told him frankly I did not think American workmen would ever adopt Russian methods and that there was no Communist party in America. He repeated my remarks to John Reed, the author, who died last fall, who came to me and asked me to repeat my statements. I explained to him that I did not say there were no Communists in America, but that I had asserted the Communists did not have a party organization.

"On the night of August 6, at eleven o'clock, an armed guard came to my hotel and arrested my wife and me, throwing us into separate jails. For two months we received no suggestion relative to the charges lodged against us. My wife could not speak Russian and suffered from her solitary imprisonment. At the end of two months, I was called before M. Feldman, chairman of the committee in charge, who asked me if I would report to

him. I said that I would report to him. After a long delay she entered. She was emaciated and miserable, and did not recognize me, as I formerly wore no beard, and now I appeared before her with my face covered with

long gray whiskers. I asked her not to cry and worry, and she indignantly protested, declaring she had no tears left, and could not possibly cry because of the great injustice which had been done us by the very persons for whom we had worked for many years.

"M. Feldman said we would be released immediately, but there was another long, weary wait before orders were received for us to prepare immediately to go to the station."

FIVE BILLS IN HOPPER TO CHECK OHIO CRIME WAVE

COLUMBUS, O., January 12.—Five bills were before the legislature today aimed to check the crime wave. Outstanding among them was a new measure to establish a state constabulary, introduced by Senator Harding.

Another measure was designed to cut out motion pictures depicting murder, robbery and similar crimes, on the theory that such pictures prompt commission of such crimes. Others proposed amendment of the criminal code to make highway robbery punishable by life imprisonment, to provide a death penalty or life imprisonment for the killing of a police officer while on duty and to curb automobile stealing by requiring registration of all sales of automobiles.

The soldiers' bonus resolution introduced in both houses late yesterday was expected to be referred to the military affairs committee, regarded as friendly to the proposal. Many new bills were expected to be thrown into the legislative hopper at today's session.

The bonus proposal is to submit to the vote of the people at the next November election a \$25,000,000 bond issue which will provide a fund sufficient to pay each Ohio man or woman who saw service in the world war \$10 for each month's service.

Senator Tom Jones of Meigs county, elected to the state senate while serving as captain in the thirty-seventh division overseas, is chairman of the senate military affairs committee.

The committee on elections had a bill before it today by Representative Carpenter, of Jefferson county, providing for the combining of presidential and state primaries in presidential years. A bill to give county clerks, recorders and prosecuting attorneys a four year term instead of two years, was introduced by Senator Archer, of Noble county.

Thieves Open Stores To Sell Their Loot

CHICAGO, January 12.—Business became so good here for a gang of grocery thieves, who stole on a wholesale scale from delivery trucks, that they had to open several retail stores to dispose of their plunder more readily, police declared today in announcing that they have accounted for thefts of meats, butter, tea and other groceries valued at \$150,000, with the arrest of seven members of the gang. They said three markets were recently opened by the thieves.

Two of the men were seized yesterday when they were trying to steal a truck loaded with meats. They are said to have confessed and named their companions. Shortly afterward the police raided four markets and arrested five more men. One of the gang told where a truck load of butter, stolen a week ago, could be found. It was abandoned, he said, because after it had been tasted it was found not to be up to their standards.

FRENCH CABINET BEATEN; RESIGNS

PARIS, January 12.—The cabinet of Premier Lyautey resigned today following its defeat on a vote in the chamber of deputies.

Premier Lyautey immediately went to the palace of the Elysee and presented the collective resignation of the cabinet to President Millerand.

Georges Lyautey, minister of marine in the Clemenceau cabinet, formed the first cabinet under the administration of President Millerand September 24, last, when M. Millerand resigned his premiership to become president of the republic.

PARIS, January 12.—The cabinet of Premier Lyautey suffered a defeat in the chamber of deputies today.

The vote was on the question of postponing all interpellations until after the conference of the allied premiers, set for January 19, the premier making his demand for such postponement a question of confidence. The government's proposition was defeated by a vote of 463 to 125.

Costs But Little More To Feed Man Than Dog

COLUMBUS, O., January 12.—It costs but little more to feed a man than a dog. This was the conclusion reached here last night at a meeting of Ohio sheriffs, some of whom pointed out that in their counties \$20 per day was the allowance for feeding impounded dogs, while \$60 was set aside for a day's rations for a prisoner in the county jail. The sheriffs ridiculed the state law which makes the sheriff act in the dual capacity of dog-catcher for his county.

Sheriff Frank Holyeross, of Franklin county, was elected president and Sheriff J. E. Cusick, Montgomery county, secretary-treasurer.

War Department Orders Reduction Of American Forces In Germany

WASHINGTON, D. C., January 12.—Reduction of the American forces of occupation in Germany from 15,000 to 8,000 has been ordered by the war department.

Secretary Baker wrote today to Representative Byrnes, Democrat, South Carolina, that the reduction already was under way. He added that the ultimate withdrawal of the entire force was a matter "for future consideration." The cost of operating the force of 15,000 was approximately \$75,000 a day, Mr. Baker said, but under the terms of the armistice, Germany must pay the maintenance costs.

FRENCH DESTROYERS SINK A TRANSPORT FLYING RED FLAG

CONSTANTINOPLE, January 12.—(By the Associated Press)—French destroyers have sunk a transport flying the red flag and carrying soviet troops presumably to Trabzon. It is said in a dispatch received here. The encounter occurred ten miles west of Novorossisk, the French warships attacking the transport despite the fact that it was escorted by a soviet flotilla.

When the French destroyers came within range the transport opened fire, but its guns were quickly silenced by shells from the warships. The transport was then torpedoed by the French destroyer Salskaya. The sinking vessel was steered toward the coast and run aground, a part of the troops and crew escaping by swimming. The French suffered no casualties.

COMPLETE REMODELING OF OHIO ELECTION SYSTEM IS PLANNED

COLUMBUS, O., January 12.—Complete remodeling of Ohio's election laws has been agreed upon by the house elections committee, Chairman Graham, of Muskingum, announced today, following the first formal meeting of the committee. Though the senate committee has not yet met for organization, Mr. Graham said, talks with individual members showed them to be in hearty sympathy with the proposition.

No definite program has yet been formulated and probably will not be for some time, or until the committees have had time to study the present election laws and those in other states. It is understood that the committee is very much impressed with the double system of election officials now used in several states, which enables them to report the result of the vote almost as soon as the polls close.

Chairman Graham said there is no doubt but that Ohio one of the most important states of the union, now has the most cumbersome, expensive and archaic election laws in the country and that the only way to improve them is to completely recodify them, enacting new provisions and repealing many of the present laws.

The house committee has been in conference with Secretary of State Smith and his election experts who agree that a complete overhauling of the election laws is urgently needed.

A joint meeting with the senate committee probably will be held early next week, at which time definite plans for working out a new system of election laws will be considered. Chairman Graham says he is determined to have the laws completely revamped during the present session. He was not able to state whether the committee will decide on using voting machines.

The senate is prepared to adjourn this afternoon until next Monday evening. The house expects to remain in session tomorrow.

Hiram Johnson On Warpath Again! This Time It's In Defense Of Primary System

BY DAVID LAWRENCE (Copyright, 1921, by Times Pub. Co.) WASHINGTON, Jan. 10.—Senator Hiram Johnson of California has declared war again. This time he is turning his guns "on the forces of reaction," which are aiming to eliminate the direct primary system and go back to the convention method of selecting party candidates.

Mr. Johnson will go out on the stump and carry his cause to the people directly in the various states where the assault on the primary is greatest—New York, Iowa, Indiana and West. Senator Johnson sees in the attitude of Governor Miller of New York and the utterance of other executives another attack on the primary system which he does not intend to pass without a fight. He had warm words of praise today for the recent speech of Charles Evans Hughes defending the primary system.

"It was a brave speech for a man coming from New York to make," said the California Senator as he went on to discuss the citadels of "reaction" in American and said that if the fight against the direct primary were successful it would eliminate progressive legislation altogether in American politics. With the removal of the direct primary system and a return to the convention method, Mr. Johnson believes politicians will be able to do about as they please.

Unquestionably some flagrant faults have been found in the primary system, especially in the west where the non-partisan league has captured the well-advertised names of the old parties and turned things upside down but in the efforts to cure such a situation the foes of the whole primary system of nomination have come to

Harding Prepares For Vacation Trip To Florida

MARION, O., January 12.—Preparations for President-elect Harding's trip to Florida are nearing completion, and although no definite date has been announced for his departure, it is indicated that he will remain in Marion only for a week or so longer.

It is understood that plans originally had been made to leave for the south during the present week, but that it was found impossible to conclude in time the president-elect's conferences here.

Mrs. Harding, who has planned a shopping trip to Washington and New York before joining the president-elect in Florida, is expected to say goodbye to Marion within a very few days. Her departure has been delayed, however by a severe cold, which has kept her indoors since Sunday.

Britain's Unemployed Increase LONDON, January 12.—Reports from the labor exchanges show an addition of 85,000 to the ranks of the unemployed in the past week, but there are no signs, despite the many cabinet deliberations, that the government is any nearer a solution of the problem.

CLEVELAND'S SAFETY HEAD IS SENTENCED TO JAIL

CLEVELAND, O., January 12.—Safety Director Anton Sprosty was today sentenced to ten days in jail and fined \$500 by Common Pleas Judge Levine for contempt of court growing out of Sprosty's failure to heed the court order to put into force the eight hour work day in the city fire department. Judge Levine gave Sprosty three days in which to enforce the order and heed the contempt action. Failing to do so, the court said, he would order Sprosty committed to jail and compel him to pay the \$500 fine.

In answer to the court's ruling Sprosty declared he had been advised by the city law department that to permit certain members of the fire department to work more than eight hours a day was no violation of the court order. He said he had acted solely on the advice of City Law Director Wood.

Wood said he would take the case to the court of appeals immediately and ask for a stay of execution while the higher court considered the merits of the action.

No effort to carry out the order of Judge Levine will be made by the safety director pending the result of the appeal.

Conditions in the fire department, it was announced, will remain unchanged for the present.

DAUGHERTY CONTINUES HARDING'S ADVISOR

BY ROBERT T. SMALL (Copyright, 1921, by Times Pub. Co.) CINCINNATI, Jan. 12.—Word comes to Marion that the part Harry M. Daugherty, of Ohio, is to play in the next administration is a subject of widespread discussion and speculation. Some have it that he is to be a Colonel House to President Harding. Others insist that a return to normalcy will find Mr. Daugherty in the role of Mark Hanna.

Truth of the matter is that Mr. Daugherty on March 4 next is scheduled to step into the troubled shoes of Mitchell Palmer. Some have it that he will accept this cabinet position there is no longer room to doubt.

His closest friends are urging him to do so, and Senator Harding is showing in more ways than one that he is dependent upon the political wisdom and the warm personal friendship of Mr. Daugherty.

The latter generally is referred to as Senator Harding's pre-convention manager. As a matter of fact, he has continued in the capacity of manager throughout the entire campaign. National chairman Will H. Hays had charge of the party machinery, but Mr. Daugherty had charge of the candidates. No important decision was made by Mr. Harding until Mr.

Simon Labold And A. H. Bannon Close Deal For The Friel Building

Another important realty deal was consummated Wednesday when Simon Labold, president of the First National bank, and Attorney Arthur H. Bannon purchased the handsome two-story brick business block on Chillicothe street occupied by the Criterion Clothing company. It is understood the consideration was about \$45,000.

The building was built three years ago by the late Michael Friel. Before he died in May 1919, he willed the building to the Holy Redeemer congregation. The proceeds of the sale

of it will be used to wipe out an indebtedness on the new Holy Redeemer school building, which has been changed to the Friel School, to perpetuate the memory of Mr. Friel. It was his liberality that cleared the school of all indebtedness.

Rev. J. E. McGuirk, pastor of the Holy Redeemer church, confirmed the news of the sale to a Times man today. He said the negotiations had been on for several weeks. The Criterion Clothing Company has an unexpired lease on the building, whose dimensions are 30 by 120.

Miss Romaine, Noted Singer, To Be Heard Here Thursday Night

Of the young American singers who have joined the Metropolitan Opera Company of recent years, Margaret Romaine is undoubtedly the most successful.

That she was due to go far in the operatic field was apparent in her debut, for she sang the difficult role of Masetta in Verdi's "La Bohème," with an assurance, both vocal and histrionic, which immediately raised her to a high estate among the company's personnel and won the undivided favor of the critical press. Since that first night her progress has been slow but sure. Any one familiar with the conditions surrounding the management of America's premier opera house, knows that Mr. Gatti-Casazza's plan for young singers is always that they make haste slowly, a scheme of things ordained by the fact that always in the company there is a certain number of established prima donnas who must have their appearances despite any degree of sudden popularity which the younger singers may gain.

Miss Romaine will appear in the

High School on Thursday, January 13th, at 8:15 p. m.

THE POWER you get out of a motor car depends upon the POWER you put into it. The kind of gasoline and oil you use governs its performance.

Dependable, economical power can be obtained only with pure, "Straight-Run-Refinery" gasoline, produced from high grade crude oil without blending or mixing.

Such a gasoline is PUROL.

PUROL is super-refined in our own refineries from Cabin Creek, (W. Va.) crude, recognized as the finest crude oil in the world. Every phase of its production and distribution from the well to the consumer is under our direct control and supervision.

PUROL is homogeneous--that is every drop is un-

iform, insuring constant, dependable power and maximum mileage per gallon.

PUROL is refined free from water, sediment and heavy oils. It explodes powerfully and completely, leaving no unvaporized deposits to foul the cylinders, pistons and plugs. Thus it decreases up-keep and repair costs. Even in the coldest weather it insures instant starting of the engine.

PUROL and its "Twin of Power", TIOLENE Motor Oil, have long demonstrated in actual service their ability to produce greater motoring satisfaction at a lower cost per mile.

In buying, be sure to ask for PUROL gasoline and TIOLENE Motor Oil by name. Those names are a guarantee that you are getting the best gasoline and oil that can be produced.

MISS DOLLY WISE

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly Wise—Will send you a reference from an old and a very wise book, for the Young Matron. In Sunday's Times. She wanted to know if short skirts were being worn, and you gave her fashions correct length. Shame! on you, Young Matron. You will surely blush if you read it. Timothy, 8, 9, 10, 11, but please read the whole chapter you will see what the divinely inspired Timothy thought of women, young, old, widows, rich, poor and all.

YOUNG MATRON AND MOTHER

Miss Dolly Wise—I have been out of work for about 4 months and can't get any thing to do now, and thought you should know of some place I could get work. I am going with a nice girl and would like to have plenty of money so I could show her a good time when I see her down town. I can't let her see me when I am down town for I'm always broke. I think she likes me and I know I love her, she is 21 years old and I am 23 so please tell me where I can get a job.

MANY THANKS.

I suppose you will have to wait on your old job. However, you might add jobs if you would hustle around and find them. Maybe your mother would hire you to clean house or wash the windows. Then when you get work put a certain amount away each week, so you will have enough to live on when you are out of a job.

Dear Miss Wise—I am a young girl a boy the same age. The last evening he was to see me he told me he was coming back Sunday evening, and he didn't show up nor send me anything of word why he didn't come. Now tell me how I can find out what is the matter.

DIMPLES.

If he doesn't show up tonight and doesn't send you any word, I would change his little from steady to uncertain and look for another man to lean me around. Life's too short to worry about one man when there are so many others available.

Movie Fan.—No comedy was advertised for Saturday. If you will look at the ad in the paper before going to the show you won't be disappointed.

Dear Miss Wise—I have a little boy 2-3 years old, can you please tell me if there is a home in Columbus or Cincinnati where I could keep him through the day while I work. If so, do you know how much they charge? Where do you think would be the best place to look for work, in Columbus or Cincinnati?

WANT TO KNOW.

There is a Day Nursery in both cities where you can leave your baby while you work. The charge is very reasonable. You could probably get work at either place, but I would rather go to Columbus than Cincinnati. You may have to take a place doing housework as jobs are pretty scarce everywhere just now.

Dear Miss Wise—Please give me your opinion on this kind of a line band. I'm so miserable. I don't care whether I live or die. The angels all the time about the grocery bill, looks over all the grocery slips and if there is anything on them outside of beans, potatoes and the coarsest of food he begins to fuss and say I could have done without such. The fuses over the gas bill, phone bill and the clothes I wear. He would keep me from eating if possible. I really do hate to get at his table but have to as I put in all my time here and have no place else to eat. We have several children and he makes it miserable for them also. Always, telling them of buying clothes for them and other necessities. Every time I buy a dress or anything I have to wear he points for a week or two and calls me a spendthrift. I go without clothes as long as I can to keep peace in the family.

WORRIED WIFE.

I'd soon cure him of his pointing and fussing. If he wants to buy beans, buy them, and cook them every meal even for breakfast and make him eat them. You and the children eat earlier or later than he eats and cook what you like. If he says anything about the gas bill I'd make him sit in a cold room of course you should keep a fire going night and day in one room for the benefit of yourself and children. Since he fusses about your clothes you might as well go down town and buy a whole new outfit and give him something to fuss about.

Dear Dolly—I have read many times in your column where you do not approve of a young lady showing her affections for a young man. I do not approve of it to some extent, but I do think Dolly, that if a girl isn't so disinterested in a fellow, he will

What is MOTHER'S FRIEND

Simply and tersely stated, MOTHER'S FRIEND is just exactly what the name implies—a friend and help to mothers.

It has been made and sold for more than half a century. If it did not possess the value claimed for it, MOTHER'S FRIEND could not possibly have remained on the market. For only that which is really worth while and beneficial can survive.

The mothers who appreciate MOTHER'S FRIEND the most, and who are loudest in their praise of it, are those who unfortunately did not use it with their first baby, and who, through its use with the second one, were able to fully realize the relief it gave them.

DIDN'T EVEN NEED THE DOCTOR

Dear Sirs: I am willing and anxious to tell my mother about MOTHER'S FRIEND. It did me so much good that I wouldn't be without it if it cost \$5.00 a bottle. With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I only had a nurse; we had no time to get a doctor because I wasn't very sick and only sick about ten or fifteen minutes.

"Any mother can write me and I will only be too glad to give her advice. Yours truly,"

come to a point where he will think it is no more use for him to go with that girl since she shows no affections. I don't seem to care for him. I have been corresponding with a young man away from here and as he is a very good friend of a close relative of mine, I wondered if I am doing wrong in writing to him. He is not engaged. Also tell me what you should write about that would interest him and still not be a silly old love letter.

JANET.

I think you can judge for yourself how far you can go and what you should say to the young man. If he is very clever he can read your thoughts between the lines. Keep on writing to him, if he isn't engaged yet he may be before you get through with him. Tell him about yourself and what you are doing, and comment on what he writes about and your letters will be interesting and appreciated.

Dear Dolly—I would like for you to help me settle a dispute about how old is "Baby Marie Osborne?"

WANT TO KNOW.

Baby Marie is about 9 years of age.

BILLY WHISKERS

Billy pretended to be boiling over with rage, after telling the story about the Duke, though really not a whit disturbed, and taking the very last wisp of hay in his mouth, chewed it slowly, as if it was too good to lose any of the pleasure by hurrying, all the time glowering frightfully at the Duke.

"You're a heathen! You're no glimmering of the first rules of politeness, and deserve just this—"

But the nimble Duke was ready for a frolic, and cleared Billy's back as neatly as most boys do when playing leap-frog.

Over and over Billy charged, but each time Duke escaped by using the light leap. They were in the midst of the fun, and had forgotten all about the dreaded morning visit of the keeper, when the rattle of a key in the padlock gave warning. Billy heard—and instantly Billy knew what it meant. In pure self-defense, to escape sure capture and tedious imprisonment, the goat backed to the further corner and quickly made ready.

Back swung the gate and in came a tall, slender youth. Billy felt a quail or two about his real right to attack so delicate a boy, but when he saw the

Her Own Career

GWENDA'S REVERIE

A few hours later, Fern called up to tell Gwendolyn that he would not be able to start the new painting that day, as he had just received word from a friend of his that Natalie was at her house, and busy raising particular Cain. The only thing for him to do, therefore, was to hurry off and catch her down, if possible.

Gwendolyn hung up, feeling depressed beyond words. She explained to Fern what Fern had told her, and then started to energetically clean up the studio.

"Hard work of this sort is a sure cure for the blues," she sang out to Fern in the middle of dusting the furniture. "I have them badly today, and don't know the reason why. Don't want any lunch, and am going to spend the whole day moping right here. I'll get the dinner for us this evening. Let's call up John Neale and say we'd rather eat at home, shall we? I just know that you feel as lazy as I do about dressing up this evening and going out to eat, Fern."

"Rightly-o, anything at all will suit me," answered Fern cheerfully, dabbing frantically at her nose with her powder puff as she stood in the doorway. "I'm going out now for a little while, but I'll be back long before it's even time to think of getting the dinner, so don't you begin fussing all by yourself. Do you hear?"

The Jack Tar Club members will be guests Thursday afternoon at the home of Mrs. G. M. Freeman, 1527 Center street.

On Monday evening Mr. and Mrs. W. A. Pappert, Jr. were hosts at a delightfully informal dancing party, at which about forty of their friends were guests. Music for the evening was furnished by Arthur Landman. Several tables of cards were arranged for a number of the guests, while others danced and took part in other diversions. In the embryonic contest for the men, James Jones won first prize and Attorney S. A. Skelton was given the consolation favor. An elaborate luncheon was served at the close of the evening.

Inconsistency.

The inconsistent woman is a serious menace to the reputation of woman-kind in general. She says one thing and does another; in fact, she is usually all theory and no practice. Therefore, for the good of her sex, she behooves all women to ask themselves if they are inconsistent. Inconsistency is a fatal hindrance in the character of a business or professional woman, for it does away with the reliability which is necessary to success.

A common mistake among the young and inexperienced is that success in life comes only as the reward of flaming genius. The special events of the world, like the great accomplishments of nature, have been the result of slow but constant growth. Be thrifty with your time. Wasted hours are lost and gone forever, but the hours given to constructive labor or study will remain as faithful friends to help and strengthen you through all the years of your life.

Harding Wants To Take Oath On East Porch Of Capitol So Public May See

MARION, O., January 12.—President-elect Harding today suggested to inauguration officials at Washington that he take the oath of office on the east porch of the capitol instead of in the senate chamber as planned by the congressional committee.

He telegraphed to Senator Knox, chairman of the congressional committee, that, although it would be agreeable to him to have the ceremony in the senate chamber, he thought the public might prefer to have it outdoors.

WASHINGTON, D. C., January 12

Changes in the plans for the inauguration of President-elect Harding will not interfere with the intention of President Wilson to accompany Mr. Harding to the capitol where the latter will take the oath of office, it was learned today. Mr. Wilson thus on March 4 will make his first appearance at the capitol in more than a year and a half and also his last appearance as president of the United States.

President Wilson, it also was learned today, plans to leave the White House for the home here which he recently purchased, on March 3, the day preceding his retirement from office.

Plans for the inauguration of President-elect Harding as they stood today provided for ceremonies almost as simple as those attending the induction into office of Thomas Jefferson, who walked from his rooming place to the capitol. The administration of the oath of office, the joint congressional inaugural committee has decided, will take place in the senate chamber in the presence of members of the senate, house and supreme court and a gallery of not more than one thousand persons.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up

The sensation of the year in the drug trade is Aspirinal, the tremendous cold and cough reliever, authoritatively guaranteed by the laboratories, tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal, and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies. For Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children—adv.

Hiram Johnson On Warpath

(Continued from Page One)

the fun. Modification and destruction, however, are two different things and the friends of the primary here are unwilling to admit that its ill effects are irreparable.

This is no sudden determination on the part of Hiram Johnson. He told the writer in Sacramento during the campaign that he was far from satisfied with the way any of the delegates to the Chicago convention had of June disregarded the instructions of the people. He had very little comment to make about the way Senator Harding was nominated for the California Senate, but he was engaged in the business of helping to defeat the prologue attitude of the Wilson administration. Now that the election is over and the Republican party is in power, Mr. Johnson emerges with the cause of progressivism at his bosom, bringing desperately to it to be sure, an age which he will admit is filled with powerful reactionary tendencies.

"It may be that reaction is so strong with us," he said, "that the fight against it will not succeed, but I intend to do every thing in my power to remind the people of what reactionaries are trying to do to us."

Senator Johnson has accepted the results of the last election as a repudiation of pro-league politics and not as a mandate of the people to return to the reactionary ways and it is this viewpoint which he will express in Congress when questions of taxation are actively under consideration. In his statements today, however, Mr. Johnson speaks of the "dilemma created by the movement against labor." As an accompaniment "of the endeavor to take from all voters the right of nominating their public servants."

The California Senator, who is especially friendly to the cause of labor, is bound to be heard from when anti-strike legislation comes before the Senate this week. The so-called group of "irreconcilables" which has remained a unit in opposition may be divided as the conservative eastern Republicans part company with some of the western progressives but there is a chance that Senator Harding may face a new "battle of Goliath" before long—and the opening fight by Senator Johnson on the direct primary system may be taken as an augury of further championing of progressive measures. Senator Harding himself has always been counted as a conservative but the word from Marion both before and after the election is that Mr. Harding himself shows an inclination toward social welfare legislation and the progressive wing of the party on several things which stand-patters would not wholeheartedly support. How far he will lean toward the Johnson-Norah group and how far he will follow the way of Penrose and eastern Republicanism is too early to conjecture. But Senator Johnson has not waited for any one but starts out to make his fight for progressivism—and he has selected the direct primary system as the first blow in his week ending defense.

50 HENS LAID 3 EGGS
A DAY. NOW LAY 36

Tells How to Make Lile Hens Produce Money in Winter

When I began using Don Sung in December, I was getting only 2 eggs a day from 50 hens. Within three weeks I was getting from 3 to 4 dozen a day. I shall never be without Don Sung.

Don Sung is a day, at winter prices, was almost clear profit. Your hens should do as well. It's no trouble to use Don Sung and you will nothing by trying it under his offer.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be cheerfully refunded.

Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is easily given to the fowl, improves the hen's health and makes her stronger and more active. It tones up the egg-laying organs, and sets the eggs, no matter how cold or wet the weather.

You can obtain Don Sung from your druggist or poultry supply dealer, or send \$1.00 (includes war tax) for a package by mail. Don-Sung Co., 214 Columbia Bldg., Indianapolis, Ind.

Daugherty

(Continued from Page One)

Daugherty was consulted. It was Mr. Daugherty who passed judgment upon and consented to several short trips the Senator made away from the front porch. It was to Mr. Daugherty that party managers all over the country turned when they wanted to bring any matter directly to the attention of the candidate. Mr. Hays seldom saw Mr. Harding unless Mr. Daugherty was present at the interview. His O. K. was essential in the campaign from first to last.

Continues to Consult Daugherty
Since the election Senator Harding has shown the same disposition to consult Mr. Daugherty's judgment on all important matters. This confidence in Mr. Daugherty's judgment and integrity is one of the finest commitments one man can pay another.

Many of the "best minds" of the country have paid but a single visit to Marion. Mr. Daugherty comes and goes at will. The latch string is always put for him at the little office in Mount Vernon Avenue. Just now Mr. Daugherty is acting as a sort of "Hinson officer" between Marion and Washington, and there is every reason to believe he will continue to be the medium of confidential exchanges when Marion later in the month supplants Marion as a center of national interest. Mr. Daugherty is regarded in Washington as the one accredited representative of Mr. Harding and his word is accepted as a bond.

Wants Daugherty as Confidant
Senator Harding is desirous of being able to make a confidant of Mr. Daugherty throughout his administration. At the same time he does not want to create a situation which might readily become compared to the one time intimacy between President Wilson and his man-of-all-work, Colonel E. M. House. Senator Harding can best make use of Mr. Daugherty's advice and personal services if the latter is an official of his administration. Mr. Daugherty does not want any other office than that of Attorney General. Hence it is figured here to be as certain as anything can be certain in the present situation that Mr. Daugherty is to be Attorney General. All of Mr. Daugherty's close friends speak of the matter as it is, they take it for granted that Mr. Daugherty can have anything he wants at the hands of Senator Harding. And most everyone agrees this is so.

As Attorney General Mr. Daugherty would have the official privilege of constant consultation with his chief, President Harding. He would have the run of the White House. If, however, Mr. Daugherty should continue as President and should be called to consultation before important decisions were made on any subject, politicians generally feel this course would arouse jealousies in the cabinet. There is reason to believe this jealousy might easily extend to the Senate and in the end undoubtedly would seriously prejudice the work Mr. Daugherty is capable of doing.

Daugherty Has First Claim On Harding
For the past ten months or more Mr. Daugherty has devoted his entire time to the interests of Senator Harding. He fought for his nomination at moments when all others, including the Senator himself, thought the cause was lost.

In his services to the candidate and the party, Mr. Daugherty undoubtedly has first claim upon the new administration. Mr. Daugherty is a close personal friend of Edward R. McLean, Chairman of the inaugural festivities at Washington, and is in frequent consultation with him as to the character and scope of the civic ceremonies. It is said out here that in disposing of the vast amount of Presidential paraphernalia Senator Harding would like to lean upon the judgment of Mr. Daugherty. Taken from almost any angle Mr. Daugherty seems to be indispensable to the incoming administration and his best services can be rendered to it only if he has an official capacity. "What are you going to do after March 4?" the writer asked Mr. Daugherty recently.

Didn't Care What Happened

"I became a physical wreck from stomach trouble and was a fit subject only for the operating table or grave yard. Being discouraged, I gave way to drink, which made things worse. I got so I didn't care what happened, and wanted to die. May's Wonderful Remedy has cured me of everything. Am now in fine condition and feel 25 years younger." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

All Nations Would Heed

General Bliss, preceded Secretary Daniels, who appeared again to give the committee detailed information regarding the relative naval strength of the great powers. The former chief of staff said his association with high military representatives of the other powers at Paris had confirmed his belief that all of the great nations of the world were ready to talk disarmament seriously.

"Our present form of civilization cannot stand the great strain of military preparations much longer," General Bliss declared. "The world war was a terrible strain on civilization. The next war will be very much worse. This is a business proposition, and we should determine whether there is any real basis for the fear that causes these great military and naval programs."

"It will not be necessary to have all the nations of the world represented at the suggested conference," the general said, if the United States, Great Britain, France, Japan and Italy reached an agreement.

The smaller nations would willingly accede to any proposal put forward in good faith by these five great powers he declared.

General Bliss said he had discussed disarmament "in a general way and incident to other matters" with

How To Revitalize Wornout Exhausted Nerves

Your nerve power depends on plenty of good, rich, red blood of the kind that organic iron—Nuxated Iron—helps make. It is like the iron in your blood and like the iron in spinach, lentils and apples. It does not injure the teeth nor upset the stomach. It is entirely different from ordinary metallic iron. It quickly helps make rich, red blood, revitalizes wornout, exhausted nerves and gives you new strength and energy. Over 4,000,000 people annually are using it. Beware of substitutes. Always insist upon having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. At all druggists.

Boy Takes Nip; Has Convulsions

CHICAGO, January 12.—Daniel McInry, six years old, is in a serious condition at a hospital today because he sampled some of the moonshine whiskey his father had bottled and stored in the basement.

An hour after he drank a small portion from one of the bottles yesterday, his mother found him in convulsions. Officials at the hospital where he was taken reported the case to the police and a raid was made on the McInry home. Four barrels of mash and fifteen gallons of moonshine whiskey were found in the cellar.

The police will turn Daniel McInry, Sr., over to federal authorities today to answer charges of violating the Volstead act.

Taylor Removed

(Continued from Page One)

Announcement of Mr. Taylor's removal was made immediately after the governor's conference with Major General George W. Goethals, whom the executive called into consult on a plan of reorganizing the state highway department.

It is understood that no specific charge was made in connection with Mr. Taylor's removal, none being necessary as his appointment by Governor Cox had been confirmed by the senate. The governor merely asked the senate to return Mr. Taylor's appointment along with all other appointments sent in for confirmation which have not been given senatorial sanction.

Following is the blanket request made by Governor Davis for return of the former executive's appointment from the senate.

"I respectfully request the return of all executive appointments in your hands that have not received the sanction of senatorial confirmation."

Return of the appointments made by Governor Cox will place Governor Davis in position to appoint persons of his own selection. Very few of the present heads of departments and bureaus have been confirmed by the senate.

General Goethals will be here for a couple of days on highway department reorganization. He expects to spend much of the time at the department offices, studying the system now in vogue. His recommendations probably will be made to Governor Davis at the conclusion of his investigation.

No announcement was made of the result of the first conference with the governor other than to say that General Goethals will be here a couple of days.

Marshal Fock and high British military leaders.

"If it were left to me I would not disarm an American soldier nor buy up an American ship until all the great powers had reached an agreement," declared the general. "If such a conference were to be held and if the secretary were to make public every day an abstract of the propositions put forward and the arguments for and against with the names of the national representatives who made them the common people of the world would not allow the conference to dissolve until at least the first step forward had been taken."

PROPOSED FOREST POLICY AIMED TO AID PUBLISHERS

Rep. Bertrand H. Snell.

Rep. Bertrand H. Snell of New York has introduced a bill in the house which outlines a national forest policy and offer fire protection for the timber lands. The bill is of utmost importance to newspaper publishers, pulp manufacturers and wood-using industries.

The Yellow Dog

NUMBER FIVE

The history of the public utility business is comparatively speaking, a very long one, but it has not been free from incidents that have created a popular prejudice against them, too often were the franchises under which the companies operate used as a medium for all sorts of graft and abuses.

The day of these abuses is past, but the memory of them remains in the public mind. The names "public service" and "corporation" have been symbolical in the minds of a large proportion of the public as "predatory malefactors of great wealth." Without knowledge of the facts, and based on a few notorious examples of exploitation, graft, etc., they have arrived at the empirical conclusion that every public service corporation is not only rich but also bad.

The average citizen of otherwise good character would be apt to have no scruples about beating his way on a street car, and would be likely to feel that he is entirely justified in getting the better of the opulent corporation that would lose no opportunity to get the better of him.

If you read the first four numbers of this series of articles you will have to admit that we have not been exacting about collecting all we could have collected from our patrons by very large amounts, and the stockholders of this corporation have been very patient about demanding any return from their investment, naturally feel that it is asking too much to require them to dig down in their pockets to pay operating costs that should be paid out of income. The Public Utility business is not shrouded in mystery. Its problems are primarily the same problems of any other business enterprise — production, selling, executive and financial. If it is to be successful, like any other business, it must be able to sell its product at a price that shows a profit over the cost.

As a matter of fact public utility companies turn over their capital much less frequently than do industrial enterprises and the margin of profit to public utilities is smaller than to industrial enterprises.

Therefore, the need of maintaining the margin of profit intact is of vital importance.

To accomplish this many cities have adopted what are known as service at cost franchises which provide for the automatic adjustment of the fares up and down as economic conditions warrant, thereby guaranteeing to their street railroad a fixed income. This is done possibly not through any particular love they may have for the people who own the street railways, but through a spirit of fairness and a desire to permit the service to be operated in a manner that will best serve the patrons.

Just as a comparison here is the wages we paid our men in 1912 when the franchise we are operating under was granted and what we are paying for the same labor today.

Classification Of Work	RATES OF PAY		
	1912	1920	Increase
Motormen and Conductors (Minimum)	20c per hour	48c per hr.	140 pct.
Linemen	27 7-9c per hr.	66 2-3c per hr.	140 pct.
Linemen's Helpers	16 2-3c per hr.	50c per hr.	200 pct.
Power House Engineers	\$72.50 per mo.	\$160. per mo.	121 pct.
Power House Oilers	\$50.00 per mo.	\$125 per mo.	150 pct.
Power House Firemen	18 3-4c per hr.	60c per hour	220 pct.
Sub-Station Employees	\$40.50 per mo.	\$115 per mo.	184 pct.
Armature Winders	30c per hr.	70c per hr.	133 pct.
Car Repairers	16 2-3c per hr.	49 1-2c per hr.	197 pct.
Car Repairers' Helpers	15c per hr.	44c per hr.	193 pct.
Trackmen	17c per hr.	43c per hr.	153 pct.

You will note that the increase ranges from 121 per cent to 220 per cent, and the fares are lower by about 16 per cent than they were in 1912.

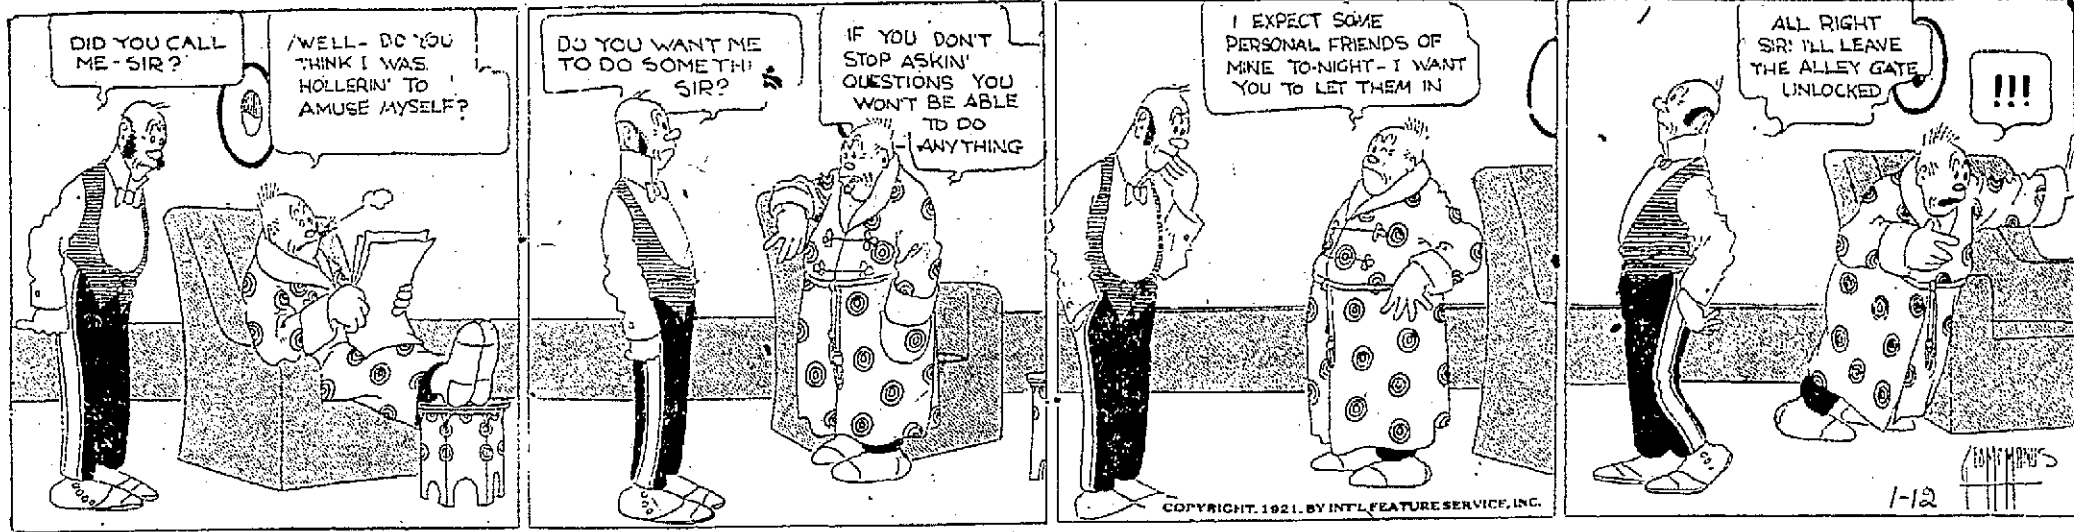

How many of our factories would have run had they maintained the same prices for their products as prevailed before the war? We have kept going in a way but it is important that you know that a great many things about our plant need attention; we need to spend a lot of money to put the property in good physical condition, but before it can be done it will be necessary for us to have some reasonable assurance that the money used in these betterments can be paid back, otherwise the only alternative is the undertaker.

Where is the doctor with that needle?

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarcked Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarcked Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a discutient. But a spoonful of the powder or a couple of five-grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthily without need of peppin pills or artificial digestives.

Get a few ounces of Bismarcked Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the liquid form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

New Pastor And Family Given Hearty Reception

A very cordial reception was tendered Rev. H. Stewart Tillis, new pastor of First Baptist church, and his wife and two children Tuesday evening at the church, where close to three hundred members of the church and their friends joined in welcoming the new minister and his family to the new city. The reception given under the auspices of the Ladies Aid Society of the church was a splendid success.

The first part of the evening was given over to the program rendered in the church auditorium. Rev. M. H. Bridwell, who has been supplying the pulpit of the First Baptist church while it was without a pastor, acted as chairman of the meeting. Several splendid addresses were made by visiting ministers. Rev. C. E. Severinghaus, pastor of Franklin Avenue M. E. church, welcomed the new pastor and his family to the city. While Rev. W. H. Overstreet, pastor of Scottdale Baptist church made the address of welcome on behalf of the church. Rev. George J. Horst of Second Presbyterian church welcomed Rev. Tillis to the Ministerial Association. Rev. Tillis made a hearty response, speaking of how glad he was to come to Ohio after several years' service in Philadelphia, Pa.

The devotions were in charge of Rev. J. A. Wheeler of the First Baptist church and Rev. Robert Albright, pastor of New Boston Baptist church. Congregational singing and special musical selections by Mrs. John Magner, Misses Ella Carson and Georgia McCord and Misses Myrtle Graham and Stella Rowe completed the program, after which all adjourned to the church basement, where refreshments were served by the ladies.

Rev. Tillis and wife have two children, Marjorie, aged 10, and Gordon, aged 7. They are comfortably housed in the church parsonage directly back of the church on Waller street.

USE KNIGHT MOTOR

The Pure Oil Co. is conducting a demonstration in the Standard Supply Co. window this week showing the method of oiling an automobile motor, and are using their Toluene Oil. It is of much interest to local motorists to note that they are using a Knight Motor in this exhibit. Those who are interested may see for themselves how the silent sleeve valve operates, with increasing efficiency every day. Note, too, the real simplicity of design, the absence of springs and cams that makes the Knight the long-life, noiseless motor. The Willys Knight cars are sold locally by F. E. Bower, Robinson and O'Brien.

Kiss Has Been Important

The kiss has always played a rather important part in events of the world, from the kiss of Judas, betraying Christ, to the kiss of a French general on the blushing cheek of an American doughboy as he planned a decoration on the khaki blouse. In the folklore of every country it is a prominent theme—it waked princesses who had slept for a hundred years in enchanted palaces, or transformed hideous beasts into gallant princes.

Brains of Lower Animals.

All animals have some form of brain and nervous system, which in the horse and other higher animals approximates the human brain. As compared with the human brain, those of animals are deficient in reasoning power but in other ways their intelligence is very marked.

GIRLS! DON'T WORRY ABOUT THAT UGLY LOOKING RASH

A Few Applications of Lanolated Iodine Compound Will Quickly Heal It.

Lanolated iodine is the ideal method of treating a rough, scaly, pimply skin. Unlike ordinary "tincture of iodine," it will not stain or blister. Just rub it in before going to bed, and in a few days you will wonder where that ugly looking rash or those unsightly pimples have gone. Your skin should soon become smooth and velvety without a single blemish on it.

Don't worry another minute—start this simple treatment today. Go to J. A. Hager, Fisher and Stroud or any other good drug store, and ask for a small jar of Lanolated Iodine. Use it tonight. You will surely be pleasantly surprised at the results obtained.

The soothing, healing and antiseptic virtues of iodine in this ointment are rubbed right in like a vanishing cream, where they quickly absorb the poisonous, dead or diseased tissues, at the same time protecting and soothing the healthy skin.

Fist Fight By Naval Aeronauts Leads To Calling Off Banquet

TORONTO, ONT., January 12.—The Aero Club of Canada here today announced it had called off the official banquet to the three American naval aviators in view of the incident at Maltese yesterday when Lieutenant Farrell knocked Lieutenant Hinton down because of a letter Hinton had written home.

MATTHEW, ONT., January 12.—United States Naval Lieutenants Stephen Farrell, A. L. Kloor and Walter Hinton, refreshed by their first night's sleep in complete comfort since setting out from the frozen Hudson Bay regions, where they landed on December 14 after a hazardous balloon flight from Rockaway, N. Y., today enjoyed this morning's hospitality, preparatory to their departure for the Canadian national railway, who provided a private car in which they will travel to Toronto.

To all outward appearances, the bitter dispute that arose between Lieutenants Farrell and Hinton shortly after their arrival here yesterday, which culminated in a blow from Farrell, that sent his fellow aviator sprawling over a table in the home of H. J. Williamson, had been settled today. The aeronauts rose early, had breakfast together in their private car and all regretted the incident that marred their historical adventure. Both Farrell and Hinton were reflective today regarding the occurrence.

The altercation arose over a letter purported to have been written by Hinton to his wife from Moose Factory, where they first found succor after wandering through the wilderness four days subsisting on two carrier pigeons and curibon moss. In the letter, published by a New York newspaper, Hinton is alleged to have written that Farrell, exhausted from the rigorous wandering, pleaded with his two companions to kill him and cut his body to enable them to get back to civilization.

Farrell charged his companion with "double-crossing" him, saying all had agreed that their letters should not be published. Hinton's refusal to retract, was the immediate cause for Farrell's blow. Newspaper correspondents interfered and separated them.

You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

Pure, Rich Blood Will Keep Your Body Vigorous And Healthy

When impurities creep into your blood the first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown.

This whole condition is a warning that nature needs assistance in giving the system a general house-cleaning.

Nearly everybody needs a few bottles of S. S. S., the great vegetable blood purifier, to cleanse out all impuri-

ties about twice a year. It is an excellent idea to take this precaution to keep the system in a vigorous condition so as to more easily resist disease to which every one is subject. S. S. S. is without equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young.

Mr. Purcell Suffers Fire Loss

Local friends of J. D. Purcell were sorry to learn of the loss suffered by him in the disastrous fire which swept Lexington, Ky. According to telegraphic reports the dry goods store of Mr. Purcell was damaged to the extent of from \$10,000 to \$15,000.

He was formerly a member of the dry goods firm of Purcell & Bragdon,

which had a store in the Kendall block, the present site of the Distel building, Seventh and Chillicothe streets, but he never took an active part in the management of the business. The partnership was dissolved in 1907, after existing 10 years, and Mr. Purcell later located at Lexington, where he opened a store and has prospered.

The police were not successful in getting the message through to Mr. Kerr last night, and another effort was made to get in touch with him Wednesday.

TOBACCO GROWERS ARE FORBIDDEN TO DRIVE THROUGH PROCTORVILLE ON SUNDAY

The Huntington Herald Dispatch Wednesday said:

"Ohio farmers bringing tobacco and produce to Huntington markets are forbidden to drive through Proctorville on Sunday, according to a court ruling of Magistrate J. A. Brown, of Proctorville, who tried two Scottown farmers yesterday for violating his

workless Sunday edict by driving to Proctorville through the town on Sunday. Other farmers, who heard of the arrest of the two men from Scottown, stopped their wagons on the edge of town and waited until after midnight before venturing through the forbidden district. The blockade tobacco wagons resembled an army transport in bivouac, the farmers halting their wagons in a conveyance along the road and fires were lighted to protect the drivers from the cold air.

How To Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their function, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisons which cause nervousness, rheumatic pains, backache, languor, sore muscles, twinges, joint stiffness, puffiness under the eyes and other weakening symptoms.

WAS RELIEVED AT ONCE

"I was afflicted with kidney and bladder trouble for nearly 10 years. Had one very bad spell about 5 years ago. Was confined to bed for 4 or 5 days, unable to turn without help. I commenced using Foley Kidney Pills and can truly say I was relieved at once. I take pleasure in recommending your kidney pills to all who have kidney trouble." John Heath, Modesto, Cal.

FOLEY KIDNEY PILLS

soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When these organs are working properly, the blood is cleaned and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was coming on before it was due.

No Frills To Precede Man O'War's Arrival

PHILADELPHIA, Jan. 12.—There will be no ceremony in the departure of Man O'War, world's champion running horse, when he leaves Berlin, Maryland, next Monday for his future home in the Blue Grass country of Kentucky. Neither will there be any unnecessary frills when the undisciplined king of three-year olds arrives at Lexington, it is said. D. Biddle, owner of the famous horse, can prevent it.

There will be nothing more to Man O'War's arrival in Kentucky than there was when he was shown at the Rose Tree Hunt at Media, Pa., after his victory over Sir Barton in the Preakness last fall. At the Rose Tree Hunt Man O'War was merely paraded before an admiring crowd and no one was permitted to touch him.

Every precaution will be taken for the safety of Man O'War on the railroad journey and the car he will occupy will have every convenience for watering and feeding. It is understood the insurance on the famous race horse remains at \$100,000.

Fohl Should Put Winning Team In St. Louis

Occasionally one hears a note of surprise that the St. Louis Browns owners selected Lee Fohl as manager of that club for 1921. Still this chap, who used to play with the Senators years ago, has every quality a manager needs, save perhaps a slight weakness in the matter of quick thinking on the field and for all we know he may have developed that in his experience as tender of the Cleveland Indians. Fohl, when he took charge of Cleveland in mid-season, was considered a club leader and yet he did so well that he remained there for years. Lee is an admirable character and fitted for leadership, if for no other reason than for his honest, his hard-working ways and his faculty of getting on with every one around him. He understands Bobby Quinn perfectly and Quinn also understands Lee like a brother. The club he will have to work with is a high-class one, save for pitchers, and Fohl should be strong in handling slabsmen, due to his long catching experience.

Ashland Five Here Friday

Friday evening, in the high school gym, the P. H. S. basketball five will play its second game of the season with Ashland high as their opponents. The game will begin at eight o'clock. The team spots uncovers in last week's game with Chillicothe are being ironed out in the stiff practice sessions held every afternoon this week. Coach McComb is giving each player special attention and is building up the team with Captain Muller out of the lineup. Captain Muller injured his knee last Friday night in the game with Chillicothe and has been getting about with a decided limp this week. It is probable that he will get into a part of the game with Ashland. Gulkner is being worked at the guard position left vacant by Muller, and this lad is showing much ability in this line of the game. He broke into the game last week and made a fine showing against the speedy Chillicothe forwards.

TO APPROVE NEW NATIONAL AGREEMENT

CHICAGO, January 12.—Official approval by the various league representatives was all that remained today to formally create the new national agreement under which organized baseball will be governed by Federal Judge Kenesaw M. Landis, for at least seven years as baseball commissioner.

The agreement appears to be acceptable to all the minor leagues. It has already been accepted by the two major league committees. No vote was taken by the minor league leaders yesterday, but it was said there seemed to be practically no opposition.

Judge Landis is expected to announce the appointment of a secretary to the baseball commissioner within the next 48 hours.

At a meeting of the two major leagues today, the American League representatives will sign the agreement. It was signed by the National League last December. The National Association of Minor Leagues, besides acting on the agreement and selecting its advisory board of members, will take action concerning five minor league players who were alleged to have played ball on the Pacific coast this winter with Fred McMullin, Chicago White Sox, indicted for alleged complicity in throwing games in the 1919 world's series.
